

CAMIS GROUP is a leading manufacturer and distributor across many sectors of industry. We pride ourselves on our ability to work closely with customers providing them with a broad range of product and value added services.

ELECTRONICS MANUFACTURING

CAMIS provides electronic design solutions and sub- contract manufacturing services to a wide range of industries including the manufacture of dedicated electronic controls for products such as off-road vehicles, agricultural cutting equipment, security equipment door opening equipment, catering equipment, water treatment plants, vending machines, material handling and industrial/domestic waste disposal units.

SUB-CONTRACT MANUFACTURING:

- Electronic system design and prototype build
- Full manufacturing and assembly services
- PCB design and manufacture
- Loom assemblies

WIRING LOOMS & ASSEMBLIES

CAMIS is the first to have a state of the art Artos Cr22 wire processing machine:

- High volume runs up to 5m per sec
- Reduced setup times
- Increased process efficiencies for both large batch size and high mix production runs

Whether it's a bespoke harness with connectors, crimping and stripping or component source, **CAMIS** can supply all of your needs.

Quality is underpinned by our quality system which is certified to ISO 9001:2015

DESIGN & DEVELOPMENT

OUR PROCESS:

Confidentiality agreement
